ABOUT EPTISA

Founded in 1956, EPTISA is considered one of the soundest and most relevant **consulting, engineering, architecture, and information technology** companies from Spain. In the course of more than 60 years of operation, EPTISA has become a synonym for quality and professionalism, demonstrating its ability to respond to the demands of an increasingly complex and challenging market.

With 110 million Euros income in the last year and with more than 100 projects under implementation in over 45 countries worldwide, EPTISA can fulfill the requirements of every public or private entity. Our commitment to comprehensive and client-oriented services make us a global player in the fields of **Transport Infrastructure, Water and Environment, Building and Architecture, Energy, Health, GIS and Information Technologies, and Socioeconomic Development and Public Administration Reform**, applying state-of-the-art technologies in order to simultaneously advance towards sustainable development.

GEOGRAPHIC DISTRIBUTION

With a presence in over 45 countries and a network of 25 well established local offices, Eptisa is a **global company that acts locally, close to the client and the civil society in which we intervene.**

Over **700** in-house professionals

1000 professionals dedicated to international projects

TECHNOLOGY

The introduction of the latest technologies has allowed the reinforcement of our leadership by combining experience and innovation towards projects with high added value. In our daily activities, we use the latest technologies and have our own software development department with skillful technicians who create top quality internal-use software as well as commercial packages, always meeting the requirements of our most demanding clients.

QUALITY

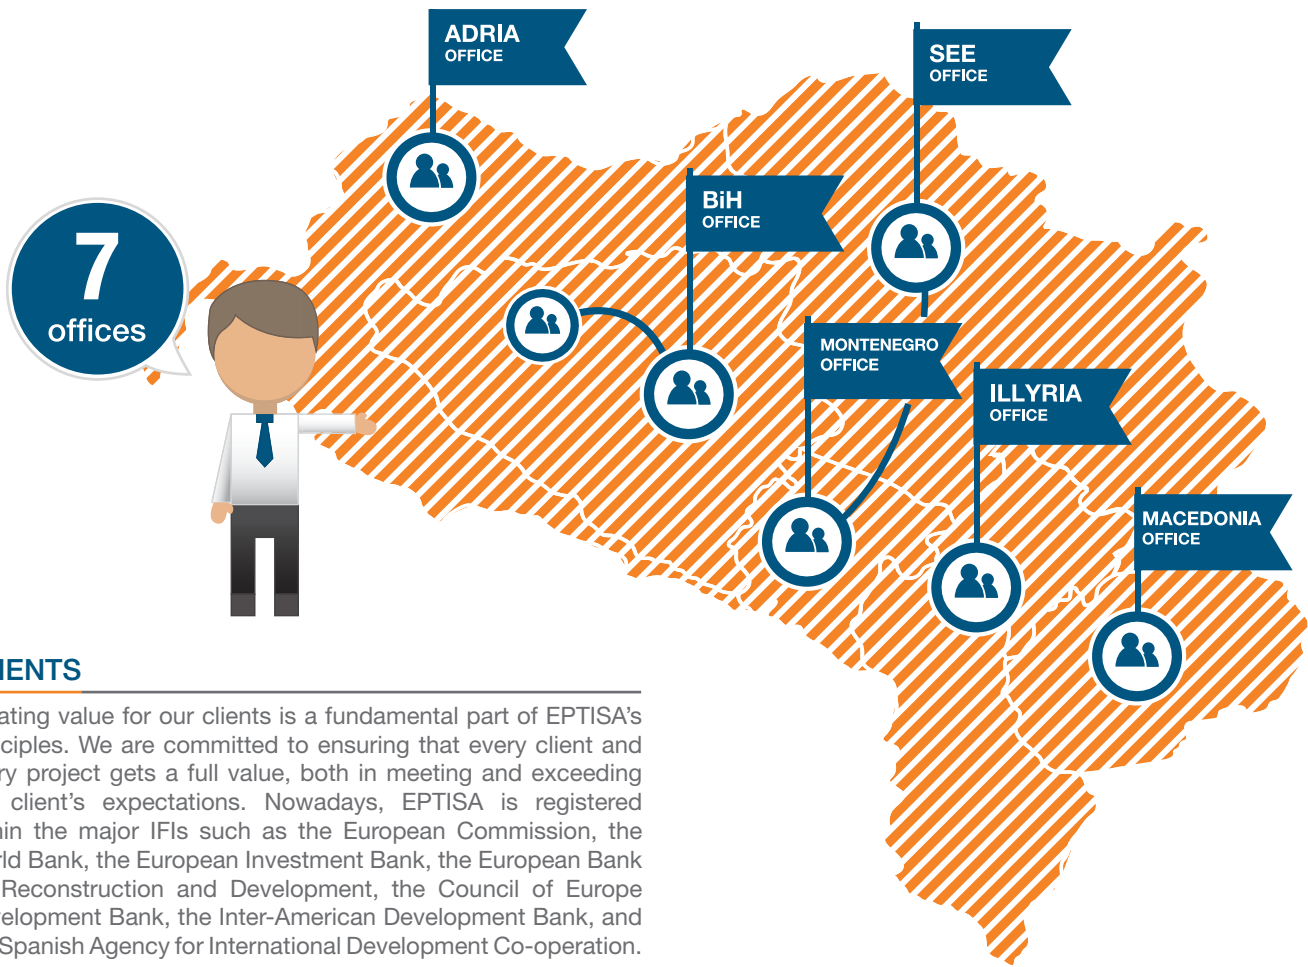

Our permanent commitment towards the highest quality standards and environmental damage minimisation allowed us to be awarded in the early 90's with the quality and environmental standards certifications ISO 9000 and ISO 14000, both issued by the competent Spanish authority (AENOR). Moreover, EPTISA is accredited by the ENAC (National Accreditation Body) as an Authorised Inspection Entity under norm EN4504 in the environmental field for water, air and noise. We were also recently awarded with the ISO 9001 management system standards certificate issued by Bureau Veritas.

DISTRIBUTION BY SECTOR

*expected year of opening a regional office for Middle East

CLIENTS

Creating value for our clients is a fundamental part of EPTISA's principles. We are committed to ensuring that every client and every project gets a full value, both in meeting and exceeding the client's expectations. Nowadays, EPTISA is registered within the major IFIs such as the European Commission, the World Bank, the European Investment Bank, the European Bank for Reconstruction and Development, the Council of Europe Development Bank, the Inter-American Development Bank, and the Spanish Agency for International Development Co-operation.

EPTISA'S PRESENCE IN THE REGION

For twenty years EPTISA is positioned in the countries of Southeast Europe as one of the largest and soundest consulting, engineering, architecture, and information technology companies. Nowadays, EPTISA operates subsidiary companies in Albania, Bosnia and Herzegovina, Croatia, Kosovo*, the FYR of Macedonia*, Montenegro and Serbia.

efforts of EPTISA in the region. Composed of a multidisciplinary team of national and international staff, the Office is organised in three Competence Units (Infrastructure, Environmental Management, Health, Energy and Agriculture, as well as Socio Economic Development and Public Administration Reform), and is specialised in the provision of technical assistance services to public institutions and to the private sector of countries in the Southeast Europe region.

In 2012 EPTISA sets up a subsidiary company in the Republic of Croatia and in 2013 in the FYR of Macedonia and in Bosnia and Herzegovina. The new companies, named EPTISA Adria d.o.o., EPTISA Macedonia and EPTISA Bosnia and Herzegovina coordinate all the commercial efforts and undertakes the project management for all the assignments implemented by EPTISA in this countries. In 2014 EPTISA continued its expansion in the region with the opening of an office in Montenegro. Completing the network of country offices, in 2016 we will set up EPTISA Illyria, covering the territories of Albania and Kosovo.

With more than 100 relevant projects implemented in the last decade, nowadays EPTISA is recognised as one of the leading consulting and engineering groups in the region, being characterised for its proximity to the client, for its understanding of the regional peculiarities, and for its strong project management capabilities.

Since 2002, the activities of EPTISA in the Southeast Europe (SEE) experienced a enormous growth, leading to the establishment of a permanent structure in the area. Thus, the opening in March 2005 of our Regional Office for Southeast Europe in Belgrade, Serbia, leveraged even more the commercial and management

* EPTISA takes a neutral position vis-à-vis the political issues within the region of the Western Balkans. The designation for Kosovo is without prejudice to the positions on status, and is in line with UNSCR 1244 and the ICJ Opinion on the Kosovo Declaration of Independence.
